Thank you,

Custom Essence, Inc.

Certificate of Analysis

Product: CE-211236-TRANQUIL (NF) WITH CBD
Batch Number: 140936
Date of Manufacture: 09/28/2021

Vapor Pressure: 0.420 (mmHg @ 20 C, calculated)
Flashpoint: 159 (deg F +/-5) (ASTM D6450)
Customer Product Code:

Test	Specification	Result
Physical State, Clarity	LIQUID, CLEAR	LIQUID, CLEAR
Specific Gravity (+/- 0.015 @20C) (ASTM D1298)	0.945	0.942
Color (Gardner scale)	YELLOW 3.0-9.0	YELLOW 4
Odor	TO MATCH TARGET	PASSES
Estimated Shelf Life (Days)	365	365
Gas Chromatograph	N/A	N/A

* Assumes storage at 70 deg F in original, sealed, undamaged container.

Exposure to oxygen, light or heat in storage in opened containers may accelerate color and/or odor changes.

Container should be inspected for homogeneity prior to each use.

Phase separation, precipitation, or solidification may occur. If this happens, gently heat (< 45 deg C) and stir the fragrance back to homogeneity. Remove the fragrance from heat immediately after homogeneity is achieved. Excessive heating can accelerate color changes. Call Technical Support at the above number for specific instructions for this fragrance.

Color changes may be expected for fragrances containing natural, essential oils, which may be subject to batch or region specific variation.

We certify that the quality of the sample noted above is representative of Industrial Quality.
